

To Whom It May Concern:

Velvet helped me discover my style. I have a unique, Venice architectural home, and Velvet's interior design work created the perfect complement to my home's architecture. I have been thrilled with my home's design and love the compliments I get when guests visit. Velvet has an amazing wealth of resources and showed me highly original types of furniture for my home that I didn't even know existed. She thoroughly listened to my needs and interpreted my lifestyle in a way that exceeded my wildest expectations. Her design work for the furniture selections created seating for my living room that was perfectly proportioned to the room, and the colorful one-of-a kind area rug that Velvet and her designer created is stunning, and was better than any pre-designed rugs that I had seen on the market.

Her design work met my timeline, and I am thoroughly impressed with her professionalism. I can enthusiastically recommend VH Design to anyone looking for a stylish, contemporary, and comfortable home environment.

Warm regards,
Ray
